

Testimonial: Private Buyer, USA

'Well now that most of my fires are out and I have our new aircraft home, I wanted to take a moment to say that without your support, and that of your professional team, this purchase would not have been as successful.'

Sold in under four months, in a 'buyers' market', to both the seller's expectations and the buyer's satisfaction.

We fully managed the project to arrest, repossess, remarket and sell this Falcon 900EX EASy on behalf of a major European bank.

The aircraft was sold in a short turn-around time despite being off-market, in an 'as is, where is' condition, with engines not enrolled onto program and low remaining time prior to first C Inspection.

Note: This project was not directly performed under The Sharpwings® banner but conducted by the Principals
