

Turboprop Portfolio Aircraft sourcing & acquisition

Our Client:

A Canadian lessor.

Background:

Canadian lessor seeking to diversify its portfolio away from BAe 146 and RJ85 aircraft, focusing on PWC powered turboprop aircraft.

Our Achievements:

- Presented results to achieve successful board level 'buy-in' for implementation
- Secured innovative approval for export credit support
- Completed study on identification of future target aircraft types

Note: This project was not directly performed under The Sharpwings® banner but conducted by the Principals
